

Michael Pedzy started playing tennis over 35 years ago and was a hitting partner for Douglas Sachs who went on to play in the ATP tour in the 80's and 90's. He has been a player on many local championship teams and took 2nd place at the NTRP National Championships in Naples Florida in 2018 at his skill level. His approach to teaching tennis is drastically different in the respect that students will learn something very useful and new during each lesson rather than just providing a hitting session, with large improvements in student stroke performance, strategy, and psychology in a short period of time. Clinics and private lessons are available, as are specialty USTA league preparation clinics to improve USTA league player performance in both doubles and singles.

Private Lessons - Videotaping of lessons is also available which allows students to see what they are doing incorrectly while simultaneously allowing them to view their lessons over and over again

Open Clinics – Scheduled for beginner/advanced beginner levels will be 9:00AM-10:30AM on Sundays on Court 4 (weather and courts permitting). Clinics are limited to the first 6 people that are signed up.
